EXPERIENCE

Frontend Developer Intern | Alfido Tech | May 2026 - Present

- Working on frontend development tasks using HTML, CSS, JavaScript, Git, GitHub, and VS Code.
- Building and improving responsive web pages with focus on clean layout, readability, and user-friendly design.
- Practicing debugging, file organization, cross-device testing, and project documentation during internship work.

Content Creator | YouTube Channel: Me and My Feelings | 2026 - Present

- Create emotional, motivational, and poetry-based short-form videos with scripts, captions, thumbnails, and visual layouts.
- Use Canva, video editing tools, and AI-assisted workflows to plan and publish audience-focused content consistently.

PROJECTS

Personal Portfolio Website | HTML, CSS, Responsive Design

- Developed a responsive portfolio website to showcase education, skills, projects, and contact details.
- Structured clean pages with organized sections and improved user experience across mobile and desktop screens.

Quiz Game | Python

- Built an interactive quiz game with questions, user input handling, answer validation, and score tracking.
- Applied basic programming logic and conditional statements to create smooth gameplay flow.

CERTIFICATIONS AND TRAINING

- C++ Beginner Certificate - Newton School of Technology
- Employability Skill Development Program - Naandi Foundation, 75 hours, 91% score
- Canva Designing Training Certificate - YNI Academy
- Foundational Space Internship Training - Agnirva Organization
- AI Tools Workshop - be10x

ACTIVITIES AND ACHIEVEMENTS

- Participated in EY Techathon 6.0 and prepared an executive summary demonstrating structured thinking and problem-solving skills.
- Participated in IT Quiz, Mock Union, basketball competition, and self-defense workshop, building teamwork and confidence.
